LOOK & FEEL

When creating your custom kitchen, you have flexibility over the brand, colour and finish of the materials you choose.

Brand and Colour

Brands of door/drawer fronts and laminated benchtops include Laminex, Polytec, Formica and StyleLite.

Laminex® **FORMICA®**

polytec **StyleLite®**

Material

Important to note is that your choice of material will heavily influence the cost of the kitchen quote. The entry level material of choice is melamine / laminate board that is cut and edged. This standard option is the most cost-effective material of choice. Thermo-laminated / Vinyl wrap is the mid-range pricing option and 2 Pack Painted is the high-end finish available.

Finishes

If your material of choice is Laminate / Melamine, you will need to decide what finish would you like your kitchen produced in. The options are; Matte, Semi-Gloss, High Gloss or Textured. If you have selected 2 pack painted or thermo-laminated vinyl, you will need to decide if you would like flat or profiled panels (e.g. Hamptons style).

BENCHTOPS

With Aussie Cut, you can easily add benchtops to your Flat Pack Kitchen order.

Stone vs. Laminate Benchtops

When working with Aussie Cut, you have the option to select a laminated benchtop for your flat pack kitchen. The brands you can choose from are; Laminex, Polytec, Formica.

If you are looking for a Stone Benchtop, this will need to be sourced directly from a stonemason. We recommend heading to Designer Stone, just across the road from our Brendale showroom.

Laminex®   **FORMICA**®   **polytec**

We don't skimp on quality hardware, so that you have a long wearing and durable kitchen that will last you years to come.

Hardware

When it comes to hardware, we use only the highest quality from our dedicated supplier Blum.

Upgrade to Soft-Close

You will have an option for your kitchen draws to be standard or soft-close. There is a price difference between these two options and both can be quoted for. Blum soft-close hinges and drawers are a great example of this supplier's ingenuity and dedication to user convenience. These clever designs ensure that every cupboard, cabinet and drawer always opens and closes silently and effortlessly. They cannot be slammed, which helps to prevent kitchen accidents – especially when children are involved.

STEP #4

MEASUREMENTS

Basic dimensions of overall width, height and depth are enough for us to work with initially to get a quote started.

Rough Measurements

At the quoting stage, it is only necessary to have rough measurements of your space. Detailed measurements will be required at a later stage but a relatively accurate quote can be provided based on length and width measurements accompanied by a rough sketch of cabinetry.

During this stage, we ask that you provide a minimum plan view of your required kitchen layout with rough measurements like the example above. Elevations can be used to show vertical dimensions and your preferred layout, as shown below.

SUBMIT YOUR ORDER

Are you ready to order? Here are some ways you can submit your project to your nearest Aussie Cut factory.

Order Online

You can now use our online ordering system – goCabinets – to design your project from start to finish and send your order straight to our factory with just one click. Whether you are looking for your very own flat pack kitchen or to simply order a few stand-alone cabinets, goCabinets gives you complete control to design and order your Aussie Cut renovation. Order online HERE.

Submit an Order Form

Our order form includes the opportunity to select your brand, colour, material and finish of the cabinetry. It will also guide you to make decisions about benchtops and hardware so that these can be included in the quote. The order form also includes graph paper and details of general allowances so that you can get a precise quote. You can download our quoting form HERE from our website and submit it to your nearest Aussie Cut factory; Warana or Brendale.

Call Us or Visit a Showroom

To discuss any of our products, from kit kitchens to commercial furniture, please contact us at either of our branches using the below contact details. You can visit one of Aussie Cut's factories in Brisbane or the Sunshine Coast. Both the Brendale and Warana branch feature showrooms, and display just some of the great products Aussie Cut have to offer.

Get in touch:

Final considerations for your order are whether or not you would like your flat pack; assembled, delivered, or both!

Assembly

Not only do we manufacture made to measure cabinets – we can assemble them too! Our team of experienced cabinet makers can assemble your cabinets as individual units, to make the installation process even quicker and easier! Click HERE to read more about our assembly services.

Local and National Delivery Options

We offer our very own local delivery service and work with a freight company to organise shipping Australia wide. With our local delivery service we can deliver to your door in as little as five working days. With two factories in South East Queensland, we offer a local delivery service of the areas we service with our local delivery. We also now offer a national delivery service through TNT where you can pick up your Aussie Cut flat pack from a depot. Please visit our website HERE for our map of local delivery areas and depot locations to find your closest pick up point.
